The products set forth herein are "RoHS-compatible". RoHS-compatible means that products are compatible with the requirements according to Art. 4 (substance restrictions) of Directive 2011/65/EU of the European Parliament and of the Council of June $8^{\text {th }}, 2011$ on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

RoHS - Exemptions for the Product Class / Product according to Annex III: ( $\overline{\text { valid }} \square$ not valid )
$\square$ no exemptions;

- Exemption 6 (a): Lead as an alloying element in steel for machining purposes and in galvanized steel containing up to $0,35 \%$ lead by weight;
- Exemption 6 (b): Lead as an alloying element in aluminum containing up to $0,4 \%$ lead by weight;
- Exemption 6 (c): Copper alloy containing up to $4 \%$ lead by weight;
$\square$ Exemption 7 (a): Lead in high melting temperature type solder (i.e. lead-based alloys containing $85 \%$ by weight or more lead);
$\boxtimes$ Exemption 7 (c)-l: Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound;
$\square$ Exemption 7 (c)-II: Lead in dielectric ceramic in capacitors for a rated voltage of 125 V AC or 250 VDC or higher;
- Exemption 7 (c)-III: Lead in dielectric ceramic in capacitors for a rated voltage of less than 125 V AC or 250 V DC;
- Exemption 15: Lead in solders to complete a viable electrical connection between semiconductor die and carrier within integrated circuit Flip Chip packages;
- Other Exemption than above ..............................................................
