

Outstanding quality and delivery performance **Supplier Excellence Award from Bosch Rexroth**

February 20, 2014

TDK Corporation announces that its subsidiary, EPCOS Limited in China, has received the Supplier Excellence Award 2013 from Bosch Rexroth in China for the first time. The prize honors outstanding performance in terms of product quality, punctual and on-time delivery, and support to R&D.

The Bosch Rexroth plant in Xi'an, China, sources a broad range of EPCOS components. In particular, snap-in and screw-terminal aluminum electrolytic capacitors are used in the DC link of frequency converters for all kinds of industrial drives and factory automation systems. The spectrum of products shipped includes EMC filters, film capacitors, varistors and ferrites. Bosch Rexroth is a world leader in the drive, motion and control technologies for automated manufacturing systems.

About TDK Corporation

TDK Corporation is a leading electronics company based in Tokyo, Japan. It was established in 1935 to commercialize ferrite, a key material in electronic and magnetic products. TDK's portfolio includes electronic components, modules and systems* marketed under the product brands TDK and EPCOS, power supplies, magnetic application products as well as energy devices, flash memory application devices, and others. TDK focuses on demanding markets in the areas of information and communication technology and consumer, automotive and industrial electronics. The company has a network of design and manufacturing locations and sales offices in Asia, Europe, and in North and South America. In fiscal 2013, TDK posted total sales of USD 9.1 billion and employed about 80,000 people worldwide.

* The product portfolio includes ceramic, aluminum electrolytic and film capacitors, ferrites, inductors, high-frequency components such as surface acoustic wave (SAW) filter products and modules, piezo and protection components, and sensors.
